**AALTO
VENTURES
PROGRAM**

SUMMER SCHOOL 2018

**July 30th –
August 24th,**
Helsinki Finland

“

This is my first time to work with a real case. It could be hard to imagine that you were asked to do a case of such a big company if you were in China. We need to do a lot of research and interviews to handle this real case in the real market. The results we got from the real market are usually beyond our imaginations and knowledge

”

*Dai Huiyang, Tsinghua student
AVP Summer School 2017*

Aalto Ventures Program, invites bachelor and master's students with interest in entrepreneurship to 4-week-long summer experience. Over the period of 4 weeks, we guide students through the first steps from having an idea to having a business and networking within our world leading student-run startup ecosystem.
