Smart City Datathon 2018
12–14 October 2018
HONG KONG

Call for Participation

Technology is changing our lives. How a city embraces the innovation and technology determines the quality of living. The vast amount of data collected in different authorities can be converted into valuable driving forces if data analytics is properly applied. Selected teams will be given a set of air flight schedule and actual aircraft movement data, together with the open data published by HKSAR Government, and 36 hours to compete for the best innovation for the city. Don't miss out the opportunity to meet talents from other Asian countries and win a prize!!

Who should participate?
Full-time university students (undergraduate & post-graduate included) in Asia
Team of 3 members from different disciplines preferred

Fee?
Registration is FREE!
Selected oversea teams will receive travel subsidy
Food, beverage and refreshments will be served during
    the competition

Prize
Champion: HK$50,000
1st Runner-up: HK$30,000
2nd Runner-up: HK$20,000

Competition
36 hours non-stop
Use provided data and/or open data to develop or build business model,
    application or prototype
The official language of the competition is English

Venue
Cyberport, Telegraph Bay, Hong Kong

**Deadline for Registration
26 August 2018**
