The University of Haifa invites faculty and students from leading universities in China to take part in an academic tour to become acquainted with the opportunities available at the university and to collaborate across the academic spectrum in Israel and in China. This tour will acquaint the relevant faculty and students from China with the different program offerings at the University of Haifa as well as offer an opportunity to explore the beauty, uniqueness and strengths of Israel.

The University of Haifa was founded in 1963 and is the largest institute of higher education in Northern Israel. Over 18,000 students are enrolled in degree programs (B.A., M.A., or Ph.D.) across the University's six faculties (Humanities, Social Sciences, Sciences and Science Education, Law, Social Welfare and Health Studies, and Education) and five schools (Business Administration, Social Work, History, Public Health, and Political Sciences). The main campus of the university is located atop Mount Carmel with a spectacular view of the city and Haifa Bay.

Built on the slopes of Mount Carmel and along the coastline, the city of Haifa is frequently referred to as one of the most beautiful cities in the entire Mediterranean. The third-largest city in Israel and a symbol of religious and ethnic co-existence, it is also home to the breathtaking Bahai World Centre, a UNESCO World Heritage Site. A high-tech and educational center, Haifa is conveniently located as it lies within short distance of Nazareth, the Medieval port of Acre (another World Heritage Site), and the rocky terrain of the Galilee region. It is also less than a one-hour train ride away from Tel Aviv and about a two-hour ride away from Jerusalem.

The University of Haifa sees this tour as an opportunity to expose faculty and students from leading Chinese universities to the excellence and vitality that is offered here in the city of Haifa. This academic experience should be a stepping stone to furthering collaboration between our institution and yours, with the goal of creating long-term, mutual, academic agreements for collaboration between Chinese and Israeli institutes of higher education.
