

**US Entrepreneurship and Culture Summer Program**

Courses arrangement: The contents of the courses of University of Washington include culture and society through language, business and entrepreneurship. English is used in class.

Visit to businesses: Seattle is a quickly growing business-friendly city, famous for its entrepreneurial spirit. As an important part of this program, the students will visit famous Seattle area companies such as Microsoft and Theo Chocolate. Students will also tour the university's small business incubator program, Start-Up Hall, and Recology GreenScapes, an innovative local recycling business, an area for which Seattle is world-renowned. This experience will greatly influence the students' understanding of a wide variety of business models.

Cultural tours: there are some amazing cultural tours to help students experience the unique culture of the US and the Pacific Northwest.

--Learning the pioneer and development history of Seattle through the Pike Place Market

--Native American art and canoe carving demonstration (optional canoe ride, weather permitting)

--US cultural survey primary research project

Experience of society: we hope this program can make Chinese students feel the uniqueness of American life in the Pacific Northwest. With FIUTS (the Foundation for International Understanding Through Students) the Zhejiang students can visit a number of additional popular places of interest in Washington State to enjoy the beautiful scenery and experience local customs.
