

ZJU&UW Project Introduction

The program mainly consists of three parts, English courses, lectures and city-tour, from which we benefited much more than ever expected.

Every workday morning, we had English courses in the university. During the onemonth's period, we learnt a lot about American culture, politics, educational system and social background. Students were separated into 3 small groups, with different teachers and classrooms, whereas the same content.

After English courses, we would get into the same classroom for guest lecturers given by professors from different schools. Topics varied from bus system to Chinese education issues, which largely broadened our horizon.

You will never deny the fact that Seattle is a city full of fantastic scenery and kind-hearted people. We had site visits and out-of-class activities in the afternoon, such as Bill and Melinda Gates Foundation, Indian Reservation and Pike Place. During free time, we are permitted to explore the city on our own, or even Los Angeles and San Francisco in California.

An excellent chance to feel the pulse of the American culture, UW program, it really deserves your try.

Husky is the mascot of UW they even call the school ID card as **HUSKY CARD**

Introduction to the UW

University of Washington (UW), with a history over 150 years, is the largest university on the northwest coastline of the U.S.A.

It is located on the shores of Union and Portage Bays, with views of the Cascade Range to the east and the Olympic Mountains to the west.

The Museum's enormous collections are ranked 12th in North America in size.

Among its thousands of famous schoolmates and professors, ten of them are Nobel laureates and fifty of them are academicians of National Academy of Sciences. University of Washington has 17 colleges, five of which rank high among American university: Medicine, College of Pharmacy, School of Social Work, School of Public Health, Dentistry Nursing College and school of information.

The scenery of Suzzallo Library, Drumheller Fountain, Burke Museum of Natural History & Culture and sakuras can bring you the beauty of architecture, history and nature while you are wandering on the campus, which is just described in fairy tales.

UW is a fantastic place to study and enjoy your school life.

lived together with an American family, either a large family or a small one. There would be other international students living with the same family. All the hosts are kind and warm-hearted. On the first day they picked up us in campus and on the last day they drove us to campus. During weekends, our hosts would take us out for sight-seeing, parties or shopping. We treated each other as family members and then built de

Two students lived together with an American family, either a large family or a small one.. All the hosts are kind and warm-hearted. During weekends,our hosts would take us out for sight-seeing, parties or shopping. We treated each other as family members and built deep friendships in such a short time.

The teacher is so lovely and patient.

Seattle is a major coastal seaport and the seat of King County, in the U.S. State of Washington. It's the largest city in north-west America. The weather there is rainy and humid but from July to September it turns to be sunny and cozy which is extraordinary suitable for traveling and vacating. The city is hometown of Starbucks and the headquarters of Microsoft and Boeing also lie there. Besides,the various seafood and tasty fruits are tempting. You can take a city ride on Water Duck with a humorous and passionate captain and visit Seattle's world-famous Symbol-the Space Needle, or you can discover playful otters and touch sea stars,urchins in Seattle Aquarium.This city never fails to entertain you.

Seattle

San Francisco (SFC)

Los Angeles (L.A.)

T San Francisco Los Angeles TRIPS

Los Angeles is the most populous city in the U.S. state of California and the second most populous in the United States, after New York City.

Los Angeles locates near the equator, and its latitude is similar to Hong Kong. It has plenty of sunshine throughout the year, with golden beach and shining seashore, which appeals many tourists from all over the world. We mainly went to the most famous palaces in L.A.

And the most impressive things are the grotesque but interesting theme-houses in Universal Studios, the vivid and colorful fireworks in Disneyland Park, and Jackie Chan's and Bruce Lee's five-pointed stars in the Hollywood Walk of Fame.

San Francisco is the leading financial and cultural center of Northern California. The weather there is humid and wet, but cooler than Seattle in summer. It's famous for the Golden Gate Bridge, Cable Car, Transamerica Pyramid, Lombard Street and the largest Chinatown in America. There is also a much more beautiful aquarium there which allows us walk underwater for a long time. Beside, the world famous universities, UCB and Stanford, locate not far away from SFC.

Our voice.....

It's really a wonderful trip I met Erin, Wendy and a lot of friendly people, and from whom I benefited through the program. I experienced a lot, from the beautiful scenery in Seattle to the Universal Studios in Los Angeles. Even the troubles came across there impressed me very much. It's a chance for me to learn a real America. I hope I can come back another day

fengyu chen

Tidy blocks, elegant architecture and perfect environment, Seattle surprised me even on my first sight. I enjoyed my trip to California: Disneyland Universal Studio and SeaWorld Adventure Park San Diego. I am grateful for the people I met there. They warmly invited us to join family parties and introduced enthusiastic Americans to me. Several professors, especially and interesting ones, were very patient and helpful during our visit. We met people from different schools of Zhejiang University and we shared our sorrows and joys and left cherished memories behind. Seattle, thank you for your beauty and entertainment, love you forever.

Wenbo (U)

Cozy climate, attractive sea scenery and friendly people, the beauty of Seattle is beyond my imagination. I experienced a real American educational style in UW, a spontaneous and free way of studying. I immersed myself in the life of ordinary Americans. I enjoyed the snow mountain very much.
