

VIPP GLOBAL VIRTUAL SUMMER SCHOOL at Michigan State University

HANDS-ON BLOCKCHAIN

COURSE DESCRIPTION

Much like the Internet in the 1990s, blockchain is becoming a critical technology platform that will underpin some of the most transformative and disruptive innovations ranging from cryptocurrencies (like Bitcoin) to contract law to privacy to cybersecurity. This Summer School program will give students a hands-on chance to complete exercises that will demonstrate what it takes to launch and support a blockchain. Students will be exposed to this new and dynamic interdisciplinary field and will have the opportunity to set up and deploy a variety of blockchain applications.

After successfully completing this short Summer School, students will be able to:

- Explain what blockchain is, how it works and why it was developed
- Describe how bitcoin operates and how it relates to blockchain
- Set up a cryptocurrency wallet, load it and trade with it
- Write a smart contract and execute it
- Create and offer for sale an NFT (non-fungible token)
- Set up and run an Algorand private network

DETAILS

Fees and Payment

- \$800 per person
- Pay online
- Payment deadline is July 15, 2021
- No refund once the summer school starts

Delivery Platform

- Zoom and D2L

Program Dates

- 10 days in a 2-week period
- Monday to Friday
August 9 to 20, 2021

Study along with MSU students from different majors and conduct group assignments together.

Immerse yourself in cross-cultural learning and virtual study abroad experiences.

CLASS TIME

TIME ZONE	East Lansing, MI USA (EDT)	India	China Indonesia (Central time) Malaysia Singapore	Japan S. Korea
Local Time	8:00am - 9:30am	5:30pm - 7:00pm	8:00pm - 9:30pm	9:00pm - 10:30pm

Notes:

- A total of 15 synchronous contact hours and approximately 15 hours of offline project time
- This course is equivalent to 1 credit at MSU but no official MSU credit will be awarded to international students.

COURSE FEATURE

Capitalizing on advanced technology, this virtual Summer School program provides international college students a great opportunity to study with MSU faculty on a new and fast-changing topic without leaving home. Its substantially lower program cost than traditional in-person programs will make the program more accessible to students around the world. The program's interdisciplinary nature will be suitable to students from any background who are interested in exploring new concepts and technology. Guest lectures from the industry will enhance the classroom learning experience.

INSTRUCTOR**NEIL KANE**

*Faculty, Author, Entrepreneur
Burgess Institute for Entrepreneurship & Innovation
Michigan State University*
