PROGRAM

Creating Multidimensional Experiences

29 JULY – 16 AUGUST 2019

Experience a unique summer course, where students from around the world come together to learn how to create immersive, multidimensional experiences. During three weeks of magical Finnish summer, you will use an iterative process to go from an idea to a prototype, learning by doing, while getting to know and understand the globally renowned startup culture in Helsinki.

At **Aalto Ventures Program** you get the inspiration, capability and network necessary to build scalable businesses. We believe in having the courage to fail and succeed, and encourage our students to apply their learnings later in their lives. On a daily basis, students learn to do things in a whole new way through our courses study trips and events.
